Best Hospital Management Solutions

Administrator Dashboard screen

MHB-SoftHospital Modules

Clinical Module

The main objective of the Clinic Module is to manage the details of Clinic, Doctor, Appointment, Booking and Patient. It manages all the information about Clinic, Medicine, Patient and Clinic. The project is totally built at administrative end and thus only the administrator is guaranteed the access.

Reliable, accurate and secure data was also considered to be a complex task without this proposed system.

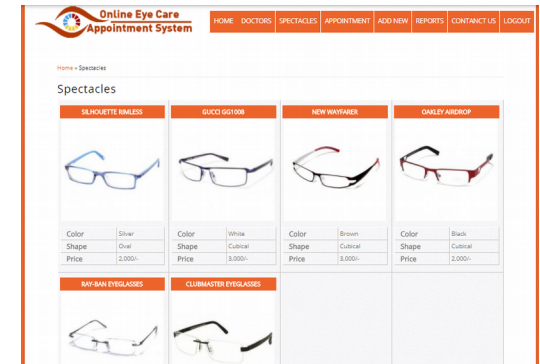

Pharmacy Module Home screen

Pharmacy Module

Pharmacy Module is to manage the details of Patient, Medicine, Medicine Company, Medicine Stock and Sells. It manages all the information about Patient, Supplier, Sells and Patient.

"Do not hesitate to use Technology to care the Patient, feel the Comfortability, Security and Accuracy "

Optical Module screen

Optical Module

Manage and provide the report of all optometrist request of patient. The request created at doctor side, this prescribed optometrist request send to corresponding department where deliver the prescribed glasses to patient.

Reports of MHB-SoftHospital System

- It generates the report on Clinic, Doctor and Medicine.

- Provide filter reports on Appointment, Booking and Patient.

- You can easily export PDF for the Clinic, Medicine and Booking.

Because there was no such record for keeping track of all the activities, which was done by the MHB-SoftHospital on the daily basis.

The new system proposed and then developed by me will ease the task of the organization in consideration. It will be helpful in generating the required reports by the staff, which will help them to track their progress and services.

Thus, it will ease the task of Management to a great extent as all the major activities to be performed, are computerized through this system.

Blood Bank Module Home screen

Blood Bank Module

Program to reduce the manual work for managing the Blood Bank, Donor, Patient, Donor. It tracks all the details about the Donor, Blood, Blood Group.

It may help collecting perfect management in details. In a very short time, the collection will be obvious, simple and sensible. It also helps in current all works relative to Blood Bank Module. It will be also reduced the cost of collecting the management & collection procedure will go on smoothly.

- Application also provides excel export for Doctor, Appointment, Patient.

- You can also export the report into csv format for Clinic, Doctor and Patient.
